

# Rocky Mountain Kids Camp Lice Check

Dear Pastor and Church Leaders,

In the interest of not turning anyone away from camp because of a health problem, it is our policy to have campers checked for head lice before coming to camp. At camp we have no choice but to quarantine an individual infected with head lice until their parents can arrange to pick them up. This is very disappointing and painful for the camper.

Therefore, we request that church leaders perform a lice check on kids and adults before leaving your church for camp.

### **Helpful Hints for Head Lice Check:**

With sufficient lighting (flashlight), look at the scalp for small, white colored nits (lice eggs). If you see any trace, let the parents know so they can get treatment immediately and/or check with their child's pediatrician.

We hope you will find that all of your campers and staff are ready to come to camp! By doing this pre-camp inspection, it saves children from a potential embarrassing situation.

Each church is required to sign the lice check release, verifying that a lice check has been performed prior to coming to camp. Please turn in the form below and present it as part of your group's registration at camp.

A great big **THANK YOU** for helping us insure that our camp is as safe as possible for all campers.

RMD Children's Ministries Leadership Team

### **LICE CHECK ACKNOWLEDGEMENT**

Church: \_\_\_\_\_

I verify that all campers and staff coming to camp have been checked for head lice today prior to coming to camp. We found no indications of head lice on any person coming to camp.
